Tim,

Please note we need a brief section describing the engineering control changes to satisfy the comments we have received from NCEA.

Also if you have time try to work on the other changes I requested and those dealing with the comments from the SAB panel. Bill said he forwarded to you the Work Plan for University of Cincinnati that I put together.

I also have a further question about the ore source after 1980. The wording on page F-8 says "Post 1980 usage included African/Virginia/South Carolina vermiculite until 2000." Can you confirm that South Carolina ore from the Grace mine was actually used after 1980?

Subject: Revised draft of Appendix F Section F4

Here is a revised draft of Appendix F Section F4 (Derivation of the JEM).

Please review and provide comments and edits by COB on Monday October 29. I will incorporate comments and then this draft can be sent to NCEA for review and (hopefully) agreement.
